

Nuclear Waste Management Organization
Moving Forward Together: Designing the Process for Selecting a Site

1. Does the framework of objectives, ethical principles and requirements provide a sound foundation for designing the process for selecting a site?

NO! UNTIL THE CREATION OF ADDITIONAL WASTE IS STOPPED, DISCUSSION OF WHAT TO DO WITH EXISTING WASTE IS A TRAVESTY OF ETHICS. THE ONLY ETHICAL APPROACH BEGINS WITH PUTTING AN IMMEDIATE STOP TO NUCLEAR WASTE CREATION

2. How can we ensure that the process for selecting a site is fair?

SEE 1. ABOVE

YOUR PROCESS ABSENT AN END TO WASTE PRODUCTION IS A CLASSIC CASE STUDY IN INSTITUTIONAL HYPOCRISY.

3. From what models and experience should we draw in designing the process?

STOP THE BLEEDING BEFORE CLEANING UP THE WOUND

4. Who should be involved in the process for selecting a site, and what should be their role?

ENVIRONMENTAL GROUPS OPPOSED TO NUCLEAR POWER SHOULD HAVE A PROMINENT, DECISIVE ROLE

5. What information and tools do you think would facilitate your participation?

END NUCLEAR WASTE PRODUCTION FIRST AND WELL MOTIVATED LOGICAL PEOPLE MIGHT PAY ATTENTION AND GET INVOLVED

6. What else needs to be considered?

How a GOVERNMENT AGENCY came to
BE SO MORALLY BLIND - AND SO STUBBORNLY ILLOGICAL
