

Canada has a plan for the safe and secure long-term management of its used nuclear fuel.

You are invited to participate in its implementation.

In 2008, the Nuclear Waste Management Organization (NWMO) initiated a dialogue with interested organizations and individuals on important principles and elements for a fair process to identify an informed and willing community to host a deep geological repository for the safe containment and isolation of Canada's used nuclear fuel for the long term. Guided by this input, we have developed a discussion document outlining a *Proposed Process for Selecting a Site*.

The discussion document describes the project that will involve the establishment of a deep geological repository and an associated centre of expertise. It reviews scientific and technical requirements that will guide selection of an appropriate site to ensure safety. It describes implementation of the project through a partnership with an informed, willing community, to foster well-being and sustainability. And it outlines proposed steps through which interested communities would be able to learn more as they consider potential interest in hosting this project.

We invite you to review the discussion document, and share your thoughts on whether this proposed process is appropriate, and what changes may need to be made. We invite and welcome you to an upcoming information session in your region. Your comments will assist the NWMO in refining and confirming an open, fair and inclusive Process for Selecting a Site for this national infrastructure project.

Regional Information Sessions

Date	Location	Time	Venue
December 7	Regina	2-9 p.m.	<i>Delta Regina Hotel</i> 1919 Saskatchewan Drive, Regina, SK S4P 4H2 Tel: 306.525.5255
December 8	Prince Albert	2-9 p.m.	<i>Art Hauser Centre</i> Ches Leach Lounge 690 (B) - 32nd Street East, Prince Albert, SK S6V 2W8 Tel: 306.953.4848
December 9	Saskatoon	2-9 p.m.	<i>Delta Bessborough Hotel</i> 601 Spadina Crescent, Saskatoon, SK S7K 3G8 Tel: 306.244.5521

For a copy of the discussion document and a complete listing of information sessions, please visit: www.nwmo.ca. You may also call 1.866.249.6966 to order a copy of the document.

If you cannot attend the sessions, we still want to hear from you. You may fill out a survey, make a submission on the website or send your comments to:
