Implementing Adaptive Phased Management 2012 to 2016

DRAFT FOR PUBLIC REVIEW

1. The draft Plan is built around seven strategic objectives. Are the objectives that we have identified appropriate? Have we missed key areas? Yes,

Also consider storage and management of nuclear waste at the sites where nuclear waste is produced. Nuclear wastes is to hazardous and unforgiving to move.

2. The draft Plan identies work and activities we propose to undertake to accomplish these objectives. Have we set out appropriate activities? No,

Nuclear waste is too hazardous and unforgiving to move. Permanent onsite management and storage is the safest and most realistic option.

3. The draft Plan is intended to anticipate the challenges ahead and plan for them. Over the next five years, what are the key challenges that will need to be addressed?

The key challenge is to face the fact that nuclear waste management and planning will have to last and remain effective as long as the nuclear waste is hazardous.

4. What will the NWMO need to put in place to respond to these challenges?

To plan a management infrastructure that will have to remain stable and last longer than any earthly society or culture ever has. requires input from everyone.

5. Other comments, questions or suggestions?

Adopt plans for the management of nuclear waste in light of present knowledge, practices and public policies. Ex Abolishing Nuclear Fissioning ASAP simplifies it b
