Implementing Adaptive Phased Management 2015 to 2019

DRAFT FOR PUBLIC REVIEW

1. The draft Plan is built around seven strategic objectives. Are the objectives that we have identified appropriate? Have we missed key areas?

Nuclear waste can be managed and contained at the sites where it is produced.

2. The draft Plan identifies work and activities we propose to undertake to accomplish these objectives. Have we set out appropriate activities?

No. There has been no discussion of the above said.

3. The draft Plan is intended to anticipate the challenges ahead and plan for them. Over the next five years, what are the key challenges that will need to be addressed?

Not to squander our resources by transporting managing and containing nuclear waste offsite.

4. What will the NWMO need to put in place to respond to these challenges?

A recognition that nuclear waste cannot be buried and forgotten in someone else's backyard.

5. Other comments, questions or suggestions?

If it ever becomes possible to undo nuclear waste, it will be more handy at present nuclear waste production facilities.
