

Interview Schedule

Good morning/afternoon/evening. My name is () and I'm calling from POLLARA, the national public opinion research organization. We are conducting a study on an issue that is of vital importance to Canadians. Would you mind if I asked you some questions? Please be assured that I am not selling anything and all of your responses will be kept strictly confidential.

(IF YES) Thank you.

(IF NO) When is a better time for me to call back? (SCHEDULE CALL APPOINTMENT)

(IF REFUSED) Thank and terminate.

AB. First, do you mind telling me in what year you were born?

18 To 24	(9%)
25 To 34	(15%)
35 To 44	(20%)
45 To 54	(22%)
55 To 64	(16%)
65 And Over	(18%)
Mean (Age):	47.68

B. Do you or does anyone in your household work for (READ)...?

The media

An advertising or communications company

A market research company

(ASK GENERAL POPULATION ONLY – DO NOT ASK FOR NUCLEAR COMMUNITY OVERSAMPLE) An electricity generation or distribution company

(IF YES TO ANY) Thank and terminate

Two years ago, the federal government passed a law to create the Nuclear Waste Management Organization, also known by its initials as the NWMO. I am going to read you a brief statement about the mandate of the NWMO.

The NWMO is an organization created in the fall of 2002 to recommend a long-term approach for managing used nuclear fuel produced by Canada's electricity generators. While nuclear waste in Canada is currently being safely managed, no permanent long-term management solution has been adopted.

The first job of the NWMO is to recommend a plan to the government of Canada for the management of this used nuclear fuel by November 2005. In developing this plan, the NWMO is required to consult stakeholders, experts and the general public as it develops a comprehensive, integrated and economically sound approach for Canada.

I would like to tell you a bit more about the work of the NWMO. Legally, the NWMO must study the following possible approaches to the long-term management of used nuclear fuel waste in Canada:

- * Deep burial of the waste in the stable rock of the Canadian Shield
- * Extended storage at nuclear reactor sites where the used nuclear fuel is stored currently, and
- * Centralized storage, either above or below ground

I am going to read you a list of traits which some people have suggested are important for Canada's solution to the management of used nuclear fuel. For each item, please use a scale from zero to ten where zero means not at all important and ten means very important, to indicate the relative importance of each item. The first/next one is... When deciding how best to deal with Canada's used nuclear fuel waste, some difficult decisions will have to be made. Given the following choices, which is more important to you? (RANDOMIZE ORDER OF QUESTIONS Q38 to Q41, and ROTATE ORDER OF STATEMENTS WITHIN EACH QUESTION)

38. (ROTATE ORDER) Keeping the nuclear waste where it is now which may be near large population centres OR having the waste transported to a remote location by truck or rail.

Keep Near Population Centres	(19%)
Transport To Remote Location	(69%)
Neither Of These	(4%)
Don't Know/Refused	(8%)

39. (ROTATE ORDER) Having the waste above ground, where it is easy to access and monitor it OR having the waste buried underground where it may be safer from external threats such as terrorist acts, but is more difficult to see and monitor.

Above Ground	(40%)
Buried Underground	(49%)
Neither Of These	(3%)
Don't Know/Refused	(7%)

-
40. (ROTATE ORDER) Storing the waste at one centralized, dedicated site OR storing the waste at seven nuclear power plant or research sites across the country, as it is now.
- Centralized Site (50%)
 - Sites Across The Country (40%)
 - Neither Of These (2%)
 - Don't Know/Refused (7%)
41. (ROTATE ORDER) Implement solutions now so as not to leave the problem to future generations to solve OR focus our efforts on research and allow future generations to decide what they want to do.
- Solutions Now (65%)
 - Focus On Research (31%)
 - Neither Of These (2%)
 - Don't Know/Refused (2%)

Would you say you agree or disagree with each of the following statements? (PROBE: Is that strongly or somewhat?) (ROTATE)

42. Since our generation was the one which created the nuclear waste, we should be the ones to decide on and implement an approach to manage it.
- Strongly Agree (53%)
 - Somewhat Agree (31%)
 - Neither Agree Nor Disagree (1%)
 - Somewhat Disagree (9%)
 - Strongly Disagree (5%)
 - Don't Know/Refused (1%)
43. Since nuclear waste remains hazardous for a long time, we should let future generations decide how they wish to deal with it.
- Strongly Agree (22%)
 - Somewhat Agree (25%)
 - Neither Agree Nor Disagree (1%)
 - Somewhat Disagree (19%)
 - Strongly Disagree (30%)
