**Implementing Adaptive  
 Phased Management  
 2010 to 2014**  
 DRAFT FOR REVIEW

1. The draft Plan is built around seven strategic objectives. Are the objectives that we have identified appropriate? Have we missed key areas?

A SITE SUGGESTION

Can the most appropriate remote site be found most probably in the Northwest Territories, Nunavut or possibly in Northern Quebec. The cost of new road access should be an important consideration. It would probably be connected to Canada's existing highway network and its extensions (eg the Mackenzie or Alaska highways.) It is possible, transport might be by boat in summer with special road access.
